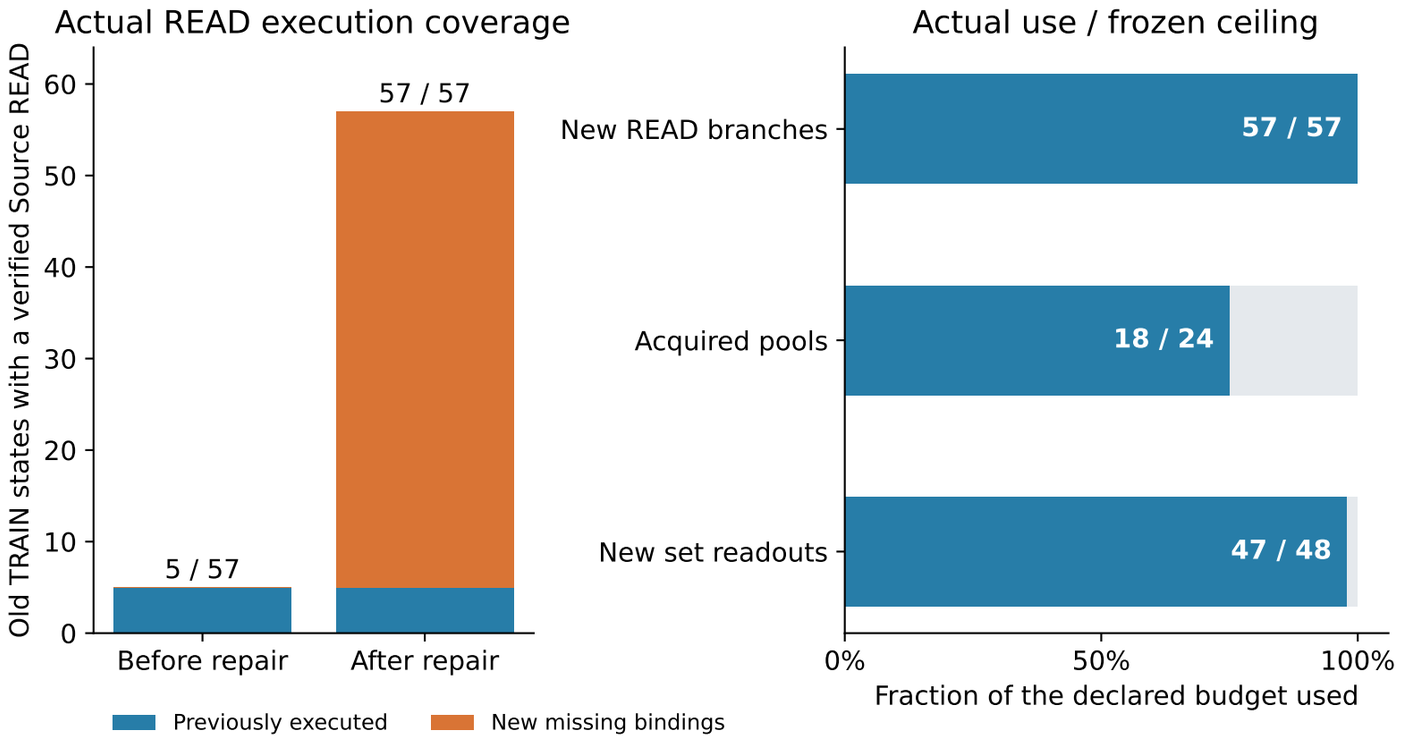
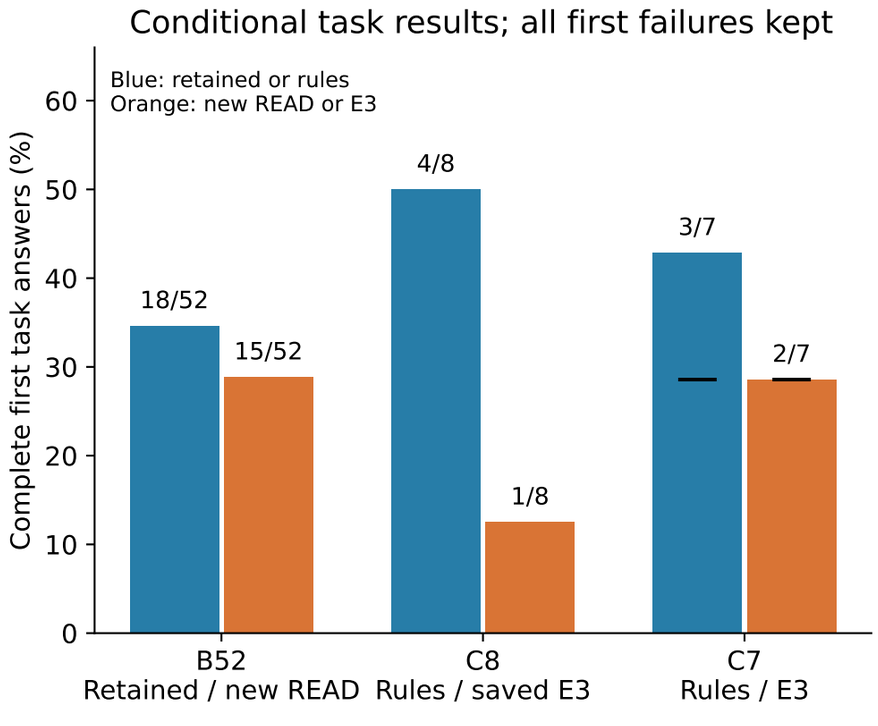
B-repair and C: closed execution coverage does not establish learned task benefit





C8: initial, B0, B1 and E3 each 1/8; fixed_context and rules each 4/8. C7 black marks: heading-only sensitivity, 2/7 each.
Source-author review on exposed TRAIN; conditional supplied-request readouts. C/B families overlap; do not pool independent sample sizes.
47/48 set readouts includes functional3 + original24 + saved6 + repair14. Source READ opening/delivery is a mechanical diagnostic.
